

DOL CLIPS

The "DOL's"

The always hard at work Hathaway announced this past weekend the formation of a league award show.

In a statement from the president, Hathaway mentions that the award show will incorporate all of the presentations of awards that usually take place during the year.

"I just think some of the award presentations get lost in the shuffle throughout the season. I want to combine all of the awards into one single event and give the recognition the way it's deserved," said Hathaway.

"I also want to change the way the voting happens as well. I think towards the end of the season we should have one single ballot that everyone will vote on and return. The ESPN poll system will no longer be used."

It should be noted that Hathaway did not go thru the Unity Council for this particular measure, which may cause some tension amongst the group. We have also received word that the Award show may cost in the millions.
